

SUBLIME USA

AFFILIATE PROGRAM GUIDE

The following document illustrates how the Sublime USA affiliate program works and the earning potential it has. For a complete demo, click [here](#).

AFFILIATE LEVELS:

The first Affiliate is A0. A0 recruits A1s, A1 recruits A2s and A2 recruits A3s. A0 makes commission from only A1, A2 and A3. A1 makes commission from A2, A3 and A4 only etc. So, the exact same thing repeats itself after 3 levels of recruits. This situation allows everyone to make the same amount of money, no matter how deep or late they sign up in the echelon.

COMMISSION STRUCTURE:

A1 = \$10 (16%)

A2 = \$6 (10%)

A3 = \$4 (6%)

Let us assume that each affiliate recruits one sub-affiliate each month at every level.

FIRST TIER:

Each affiliate (A0) recruits at least one sub-affiliate (A1) a month; totaling 12 A1 each year.

Therefore, Tier I consists for 12 sub affiliates (A1).

Each A1 enrolls in the subscription and buys 12 bottles each year. Because of the subscription, they get it at \$60 per bottle (from the regular \$90 / bottle).

This means each sub-affiliate (A1) buys 12 bottles by the end of the year.

Since there are 12 A1 sub-affiliates, the total number of bottles sold in one year is $12 \times 12 = 144$ (at Tier I)

Therefore, A0 makes a total of $144 \times \$10$ (commission) = \$1440 at the end of the first year.

SECOND TIER:

Each sub-affiliate (A1) recruits at least one sub-sub affiliate (A2) a month; totaling 12 A2 each year.

Therefore, Tier II consists for $12 \times 12 = 144$ sub-sub affiliates (A2).

Each A2 enrolls in the subscription and buys 12 bottles each year. Because of the subscription, they get it at \$60 per bottle (from the regular \$90 / bottle).

This means each sub-sub affiliate (A2) buys 12 bottles by the end of the year.

Since there are 144 A2 sub-sub affiliates, the total number of bottles sold in one year is $144 \times 12 = 1728$ (at Tier II)

Therefore, A0 makes a total of $1728 \times \$6$ (commission) = \$10,368 at the end of the first year.

THIRD TIER:

Each sub-sub affiliate (A2) recruits at least one sub-sub-sub affiliate (A3) a month; totaling 12 A3 each year.

Therefore, Tier III consists for $144 \times 12 = 1728$ sub-sub affiliates (A3).

Each A3 enrolls in the subscription and buys 12 bottles each year. Because of the subscription, they get it at \$60 per bottle (from the regular \$90 / bottle).

This means each sub-affiliate (A1) buys 12 bottles by the end of the year.

Since there are 1728 A3 sub-affiliates, the total number of bottles sold in one year is $1728 \times 12 = 20,736$ (at Tier III).

Therefore, A0 makes a total of $20,736 \times \$4$ (commission) = \$82,944 at the end of the first year.

TOTAL YEAR 01 EARNINGS FOR A0:

The total amount A0 would make, at the end of the 1st year, assuming every affiliate recruits one sub-affiliate a month:

From A1s = \$1440

From A2s = \$10,368

From A3s = \$82,944

Total: $\$1440 + \$10,368 + \$82,944 = \underline{\underline{\$94,752}}$

SUMMARY OF EARNING POTENTIAL

	1st Year	2nd Year	3rd Year
Recruit 1 affiliate a month	\$94,752	\$189,504	\$284,256
Recruit 2 affiliate a month	\$189,504	\$379,008	\$568,512
Recruit 3 affiliate a month	\$284,256	\$568,512	\$852,768
Recruit 4 affiliate a month (1/week)	\$379,008	\$758,016	\$1,137,024
